

Update: DAT 2007-2008 Edition

Please note the following corrections. Thanks to our readers for their input.

Page	Corrections
Page 106, Steps 6 and 9	For Steps 6 and 9, ADP should be on top, and ATP should be on the bottom.
Page 313, Example	The middle product (after the first arrow) should be 236 over 92, not 235 over 92.
Page 670, Question 42	Question 42 should have an additional answer choice: E. Cs
Page 745, Explanation to Question 39, Second Paragraph	The sentence should read: Choices A and D are incorrect because the hypothalamus is responsible for temperature regulation and hunger and thirst drives.
