

## JOIN US IN A CELEBRATION

Friends, Colleagues and Students:

We are very happy to announce that Kaplan and Aspect are coming together to create an exciting new presence in the world of international education.

The new partnership will bring immense advantages to both parties. Kaplan will benefit by expanding its existing portfolio of English language schools to a whole new range of destinations in Britain, Ireland, Canada, Australia and New Zealand. Aspect will gain enormously from becoming part of a unique global education company, with unrivalled expertise in Test Preparation, Professional Training and private sector Higher Education.

The merger of our operations is something we are going to plan very carefully. For 2007, both organizations are going to operate in parallel.

Over the course of the next twelve months Kaplan and Aspect will learn from each other, pooling our experience and harmonizing every element of our operations in preparation for 2008. Together we currently have 36 destinations and a unique range of courses to offer our students. We also hope to announce the opening of more schools in England, the USA, Canada and Australia in the course of the coming year.

Looking forward to seeing you at our schools!
